ENGLISH

MARINE WORLD
uminonakamichi

People who can entertain themselves, who can water their own heart so that it doesn't wilt, have a timeless appeal.

Such a person probably wouldn't try to fill up their notebook just so there aren't any blank pages. They would value the spaces between the engagements that fill their days, sometimes letting their heart swim, sometimes diving into a different world.

Dive into Kyushu.

There's no crayon for the color of the ocean. Time passes by in slow motion compared to time on land. A completely different Kyushu is waiting underwater to soothe your heart.

Experience natural, spontaneous healing as you encounter Kyushu's ocean habitats.

Spontaneously. Naturally.

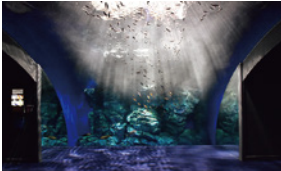

MARINE WORLD

FLOOR MAP

*Numbering indicates the suggested route.

1 Kyushu's Inshore Waters <3F>

Every prefecture in Kyushu borders the ocean. This exhibit recreates the unique ocean habitat of each region in an aquarium.

2 Kyushu: A Water-nurturing Forest<3F>

The water and trees in this space evoke the connection between forests and the ocean.

3 Open Ocean off Kyushu <1F+2F>

The Japan Current flows through the warm waters of southern Kyushu. This large, dynamic aquarium, which is 7 meters deep and 24 meters wide, recreates the open ocean.

4 Sea animal Island <1F>

In this area, you can observe penguins, sea lions, and seals from a variety of angles and interact with them up close.

5 Kyushu's Deep Ocean Waters <1F>

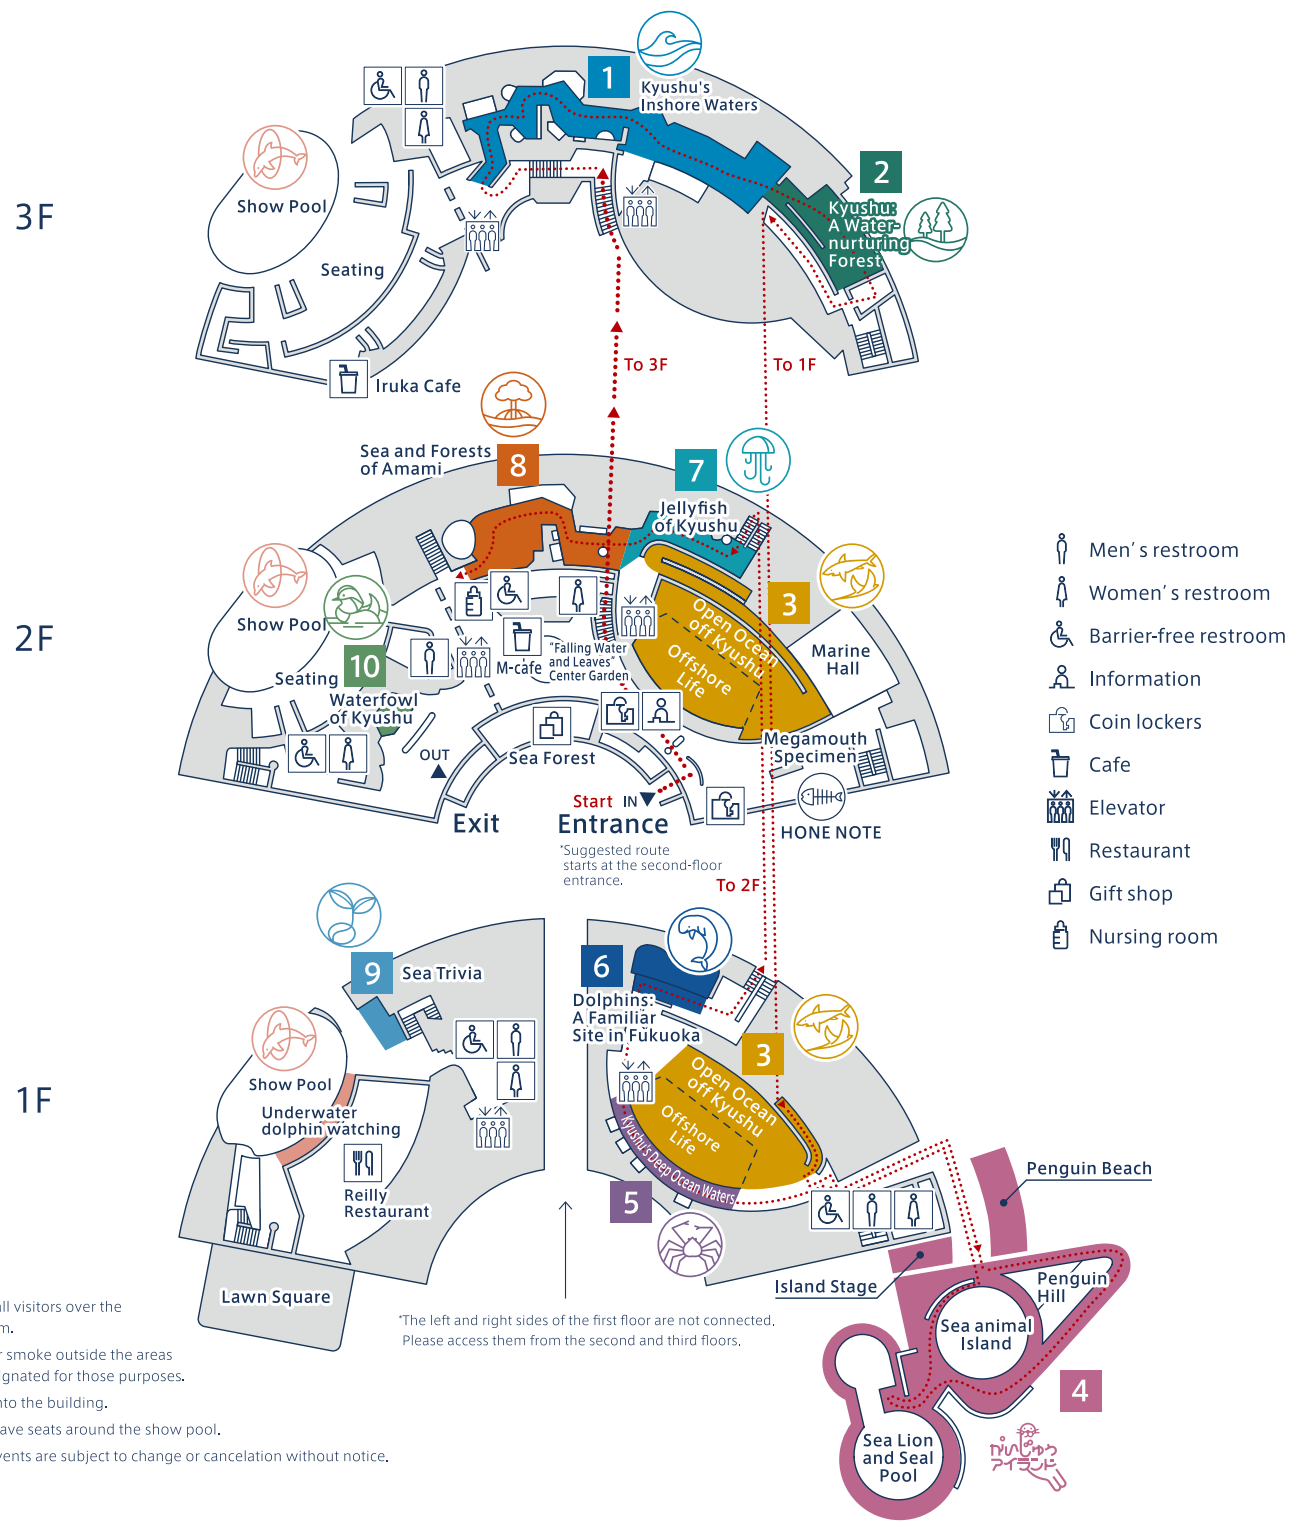

View mysterious deep-sea creatures that have evolved under harsh conditions of low water temperature, high water pressure, and low oxygen content.

6 Dolphins: A Familiar Site in Fukuoka <1F>

Enjoy the cute facial expressions of the finless porpoise, a small species that's indigenous to northern Kyushu.

7 Jellyfish of Kyushu <2F>

Light and sound give the world of jellyfish a mysterious aspect. Forget the everyday world as you experience the slow passage of time and healing rhythms.

8 Sea and Forests of Amami <2F>

The islands are rich in life nurtured by the sea and forests. This makes for a beautiful world filled with diverse ecosystems.

9 Sea Trivia <1F>

This is a space where you can relax while watching dolphins swim happily through the water.

10 Waterfowl of Kyushu <2F>

This area recreates the ponds and shores of Kyushu's mountainous regions. The waterfowl in this area reflect rich nature and unique local characteristics.

Show Pool <2F>

This show pool offers a splendid view of Hakata Bay in the background. A new sea lion stage sited right in front of the seats brings the performance closer to the audience.

HONE NOTE <2F>

Enjoy discovering secrets hidden in the shapes and sizes of bones that have adapted to their living environment, through explanations expressed through various onomatopoeic sounds.
